Tarcísio Luiz Pereira Bogo

Software Developer with Focus in Java and Angular

Criciúma, Santa Catarina, Brazil

Summary

A Full-Stack Developer with a degree in Systems Analysis and Development (IFSC) and a background in Mechatronics. Specializing in building end-to-end applications, I have hands-on experience with technologies such as Java, Spring Boot, Angular, React, FastAPI, and Node.js.Recently, I have focused on freelance projects, delivering solutions ranging from the automation and integration of complex ERP systems to the development of web extensions and custom AI-powered tools. I am driven by creating clean, modular code designed to solve real-world business problems.

Experience

Sulfrios Indústria, Comércio e Transportes de Alimentos Ltda

Administrative Assistant

January 2026 - February 2026 (2 months)

伊卡拉, SC

Trier Sistemas

Internship in Software Development

July 2024 - May 2025 (11 months)

Tubarão, Santa Catarina, Brasil

◦ Developed and maintained web applications (microservices) using Java (Spring Boot) and Angular, focusing on the goods receipt module.

◦ Resolved bugs and implemented enhancements in Java microservices, utilizing REST APIs and RabbitMQ.

◦ Developed Angular interfaces with PrimeNG (proprietary fork); implemented UI components for backend functionalities (email sending, product synchronization).

◦ Experienced with PostgreSQL, SQL queries, and JPA/Hibernate.

◦ Executed microservice migration and created unit tests (JUnit).

◦ Practiced with Docker, Git, and agile methodologies (Scrum).

Fort Atacadista

2 years 9 months

IT Support Assistant
October 2022 - May 2024 (1 year 8 months)
Criciúma, Santa Catarina, Brasil

◦ Provided on-site technical support for IT assets (hardware, software, systems), diagnosing and resolving issues for employees.
◦ Managed service desk tickets (Ellevo), prioritizing and resolving critical incidents, including POS failures and optimizing system updates (reducing a key process from 11 to 3 days).
◦ Performed preventive and corrective maintenance on computers, printers, scanners, ECFs, routers, servers, and Raspberry Pis.
◦ Served as a technical interface for employees, third-party vendors, and clients; contributed to optimizing support manuals.

Administrative Assistant
August 2022 - September 2022 (2 months)
Içara, Santa Catarina, Brasil

◦ Provided customer support (phone, chat, email) for product information, inventory, and pricing inquiries.
◦ Collaborated cross-departmentally to ensure accuracy of sales information and gondola display compliance.

Stocker
September 2021 - July 2022 (11 months)
Criciúma, Santa Catarina, Brasil

◦ Responsible for stocking, pricing, validity control, and inventory management of products, adhering to layout guidelines and optimizing stock management.
◦ Daily interaction with customers to assist with product location and information, enhancing the shopping experience.
